---

Kroger®

The Kroger logo is rendered in a bold, blue, sans-serif font. The letter 'K' is stylized with a large, curved top that arches over the 'r'. The 'o' and 'g' are also stylized, with the 'g' having a large, curved bottom that arches under the 'e'. A registered trademark symbol (®) is located at the bottom right of the 'g'.

# Business Model

# Growth Potential : Industry Acquisition History

The General Mills and Blue Buffalo numbers are scary

The stock price did drop due to sentiments about the acquisition

“ Most of the drop in shares occurred after fiscal third-quarter results were released in March. Management said higher transportation costs were affecting margins and lowered constant currency operating profit guidance, from a range of down 1% to flat to a new range of down 5% to 6%.”

# SWOT Analysis

## Strengths

Extensive Store Network  
Strong Brand Loyalty  
Strategic Partnership  
Strong Commitment to Charity

## Weaknesses

Dependency On the Us Market  
High Operational Cost  
Limited International presence

## Opportunities

International Expansion  
Prioritize organic food  
Mergers and Acquisition

## Threats

Intense Competition  
Economic Uncertainty  
Threats From Ecommerce Platforms

# SWOT Analysis - Strengths

**Extensive Store Network** - 2726 store across 35 states

**Strong Brand Loyalty** - Kroger's commitment to quality products, competitive prices, and excellent customer service has earned it a strong consumer reputation.

**Strategic Partnership** - Kroger has leveraged strategic partnerships and collaborations to enhance its offerings and drive growth.

**Strong Commitment to Charity** - Company donated \$1 billion for hunger relief and these charitable moves would further help establish a brand image among its customers.

# SWOT Analysis - Weaknesses

**Dependency On the Us Market** - Kroger's operations are primarily focused in the United States, making it heavily reliant on the domestic market.

**High Operational Cost** - The operating, general, and administrative expenses remain high at \$5,886 million, indicating ongoing pressures on operating margins

**Limited International Presence** - It has not gone international compared to its competitor Walmart. The lack of geographical expansion means it has a hard time balancing bad performance from one geographical region with better performance elsewhere.

# SWOT Analysis - Opportunities

**Mergers and Acquisition** - Kroger can pursue strategic mergers and acquisitions to strengthen its market position, expand its product offerings, and enter new geographic regions. This approach can help the company achieve economies of scale and better compete with larger rivals.

**International Expansion** - Kroger can look into expanding internationally as a major growth area

**Prioritize Organic Food** - There is a sudden rise in the demand for [organic food](#). Bringing more organic food brands can help increase sales and generate more profit.

# SWOT Analysis - Threats

**Intense Competition** - Increasing competition from the likes of [Walmart](#), [Target](#), and [Amazon](#) means Kroger has to invest more in marketing to remain relevant.

**Economic Uncertainty** - Kroger is often hit hard by [economic issues](#) in the US market. considering that the company only operates in the US.

**Threats From Ecommerce Platforms** - E-commerce stores like [Amazon](#) have been expanding their offerings, gradually taking a share in the groceries market while reducing Kroger's revenue.

# Valuation: DCF Assumptions

3% Perpetuity growth assumption for non volatile industry

-3.1% Bear and +2.2%Bull (Revenue) based on historical deviation from 5 year average of 4.3%

0% Bear and 8% Bull (Dividend) based on CAGR if 12.89% never not increasing and a largest change of +20%

Exit EV / EBITDA Multiple 7.5x historical for consumer staples from bloomberg.

# Valuation - 5 year Average of revenue growth

Valuation Scenarios						
Model	Base	Bear	Spread	Bull	Weights	
52 Week Low / High	57.37	42.10	16.24	58.34

Dividend Discount	52.34	52.34	20.28	72.62	20.00%	
Target Price	179.31	146.31		205.52	100.00%	

# Recommendation

**Investment Thesis:** BUY \$30,000 of KR

Low beta compared to market

Lower chance of downside risk which will help to bring overall beta of our portfolio down, so that we as a class can invest in stock that have higher beta

May be some upside with the acquisition
